Description

Deburring Tools are used for removing unwanted sharp edges of metal after being machined. Filing can be time consuming and not always the best solution to achieve a clean smooth edge. This is why our Deburring hand tools have been designed to easily remove burrs economically fast & efficient.

The heavy-duty Toolmaster 23 piece Deburring kit is specially designed for workshops to cover most of the applications from mass production to one off pieces. The kit is housed in a sturdy plastic case & a must for all workshops.
