MODEL:	BTA-46
Type:	Bowl Turning Attach.
Size:	760mm
Internal Thread:	~
External Thread:	~
Suits:	WL-46 Wood Lathe

Description

This bowl turning attachment is supplied with its own bed and attachments and designed to be bolted at the end of the main machine's bed of the WL-46A at the tailstock end. Once in position, you simply remove your tailstock slide, your turning head down to the end of the bed, and there is where you turn your larger jobs up to 760mm.
