### Description

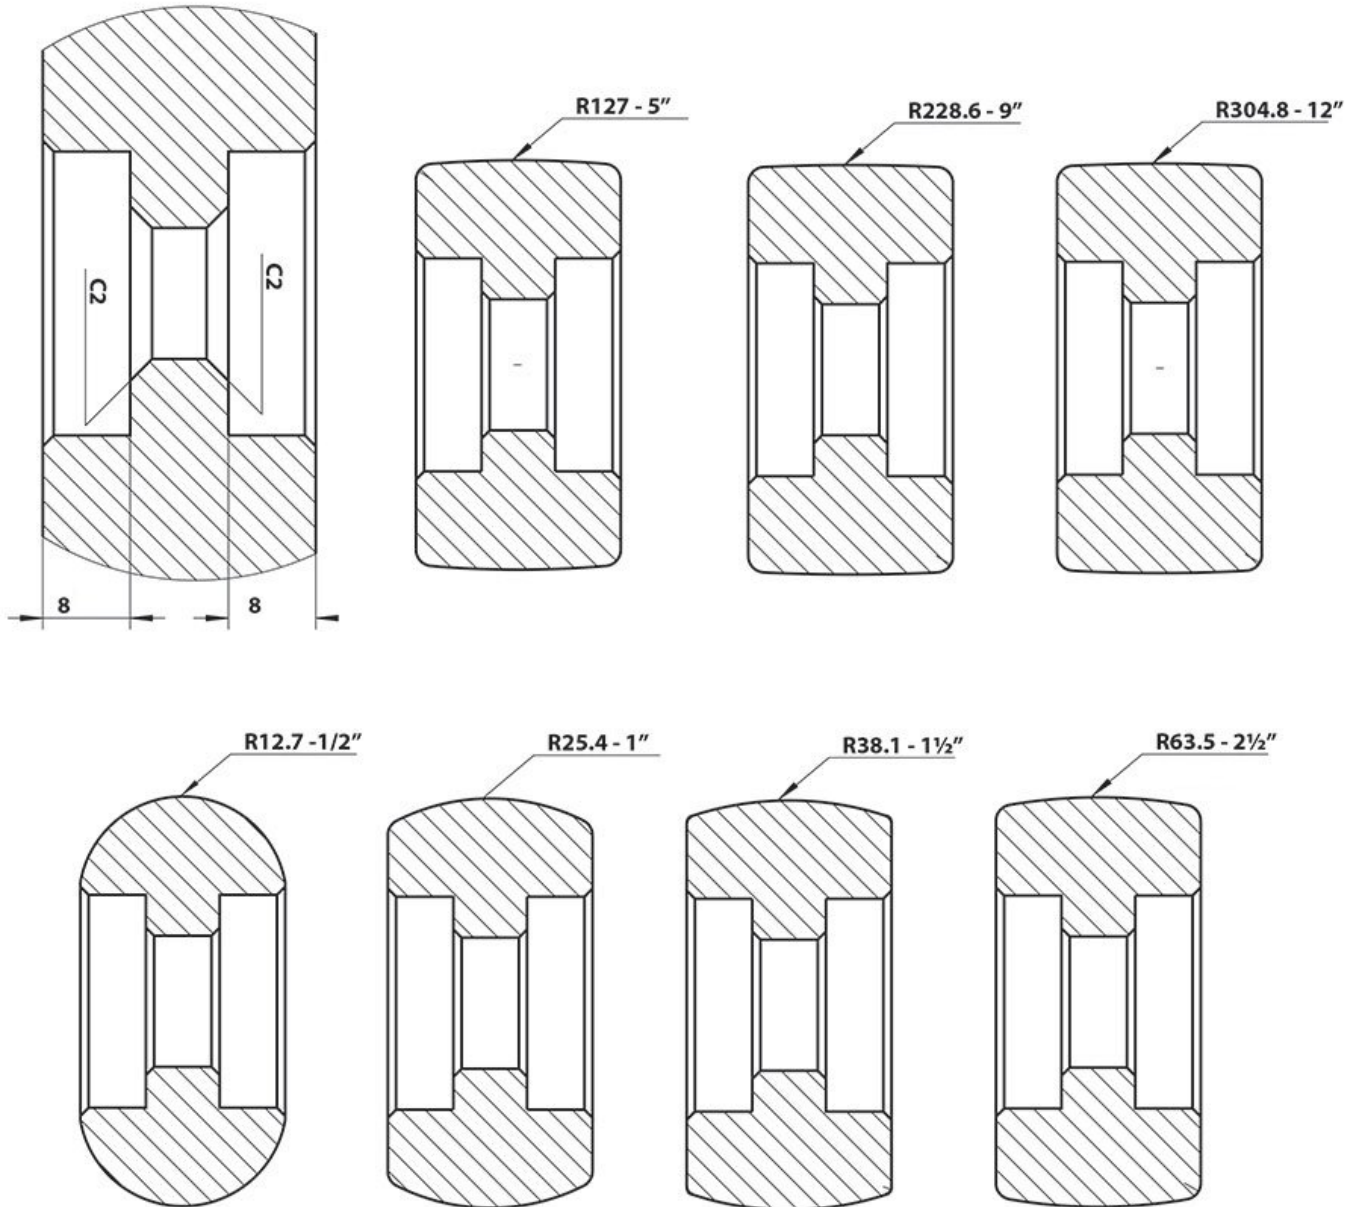

The New Metalmaster EWBT-40 is the perfect addition to any metal shapers workshop for all those small or narrow jobs requiring you to get right up to an edge that is not achievable on a larger english wheel. With side frames manufactured from 8mm thick steel plate this is a solid little performer. The frame is designed to be either bench mounted, via the feet or clamped in a bench vice giving you the flexibility to store it away after use. It is capable of shaping mild steel up to 1.0mm (20 gauge) and with a throat of 400mm giving you ample working room yet offering a small compact machine which makes this machine even more versatile. The upper wheel and 7 lower anvils are all hardened to 45-50HRC ensuring a long working life.

### Features
