Description

MIG welding of carbon steel

In many cases, disposable cylinders are cheaper than refilling reusable cylinders. Non-refillable cylinders often save time and do not require periodic re-certification. The 2.2 litre disposable gas cylinders have a much larger capacity and are filled to a much higher pressure than conventional disposable cylinders currently available.

Features

- Contains CO2/Ar: 86% Argon & 14% Carbon Dioxide
- Working pressure: 110 bar
- Tare 2700g
- Contains 242 lt CO2/Ar

Recommended Accessories

O0171
