Description

Have you had enough of drilling machines that can slip via their pulley & drive belt system? Then if this is happening to your drill in the workshop, I urge you to consider this GHD-22 Industrial 3 morse taper geared head drilling machine to eliminate that drive slippage.

This drill has all the common features that is required for e.g., large cast drill table with T-slots and rotates 360°, drilling speeds from 105 to 2900rpm, drill depth stop for accurate repeatability and a 16mm drill chuck with adaptor. Another notable feature to mention is that just like the rack & pinion drill table height adjustment, the drill head can also be adjusted up or down to suit the height for each operator.

Features

- Ideal for industrial or workshop use
- Geared head drilling machine with 3 morse taper spindle
- 8 drilling speeds from 105 - 2900 rpm
- High/low with forward & reverse switch
- Helical cut gears for quiet & smooth operation
- Swivel safety drilling chuck guard
- Rack and pinion wind-up drill head
- Rack & pinion table height adjustment with locking lever
- Thick walled column ensuring greater rigidity
- Drill ejector lever
- Safety emergency stop/reset switch
- Table rotates 360°
- Drilling depth stop setting with scale
- T slotted work table

Includes

- 16mm keyed drill chuck and arbor
