Description

NOTE: Arms sold separately (image shows optional arms for image purposes only)

The TECNA 7913 hand held Spot Welder is light weight, reliable and simple to operate units for the smash repair and sheet metal fabrication industries. There are a variety of arms available for this unit enabling a range of applications.

The 7913 has the added advantage of coming standard with a timer. A compensation circuit starts the timer only when there is a proper range of current which allows welding on oxidised sheets or materials with a painted surface. The 7913 is available in 240V or 415V, water cooled, hand held Spot Welder designed for heavy duty body repairs and light production work
