Size (Diameter x Length) (mm):	Ø100 x 330

Description

PA 6 G Nylon + Oil. Specialised material for sliding applications with enhanced self lubrication. Through the addition of oil and solid lubricants, Oilamid offers superior properties, higher load capacity and improved mechanical properties when compared to other nylon grades.

Applications examples include:

- High duty bushes
- Split bushes
- Chain wheels, gear wheels & guides
- Guide rails

Specific Features

Engineering Plastic
